United States led in most of the fields such as:

- Top 1 for number of players
- Top 1 in attending all 11 game categories
- Top 1 in winning game with more than 230 games (~58%)

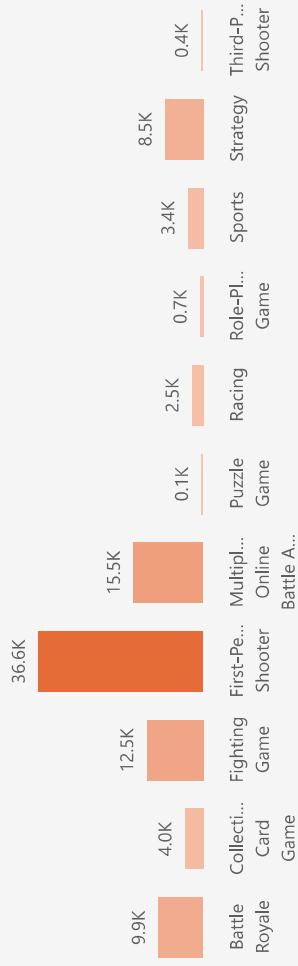

However, due to the large number of player across all game categories, it made the average earning per game for United State much lower than other countries.

The top earning average per game was belong to China with 6 million \$ per game, followed by Denmark and Korea with 5.1 million \$ and 3.6 million \$ respectively.
